Gmail: eu.helcats@gmail.com
Facebook: [eu.helcats@facebook.com](https://www.facebook.com/eu.helcats)

Events:

2014-08-18 [7th Solar Information Processing Workshop](#)
2014-11-17 [11th European Space Weather Week](#)

Thanks to Chris Perry and Matthew Wild, we have released an initial version of our new website, accessible via the following link:
<http://www.helcats-fp7.eu>. Work is ongoing to populate all the pages and do a proper check of the site, but please take the opportunity to make suggestions for corrections, additions and improvements (and logo selection).

Monthly Telecons

We are making arrangements for setting up our monthly teleconferences. We will probably, at least initially, be using WebEx (we are currently enabling our status as hosts). There will no doubt be some bugs to work out during the first couple of meetings, after which time we can decide if it meets our needs or if we look for an alternative system. In particular we will see how well the computer audio (VOIP) works or if we find participants are needing to revert to the dial in option.

We will email the science leads in the near future, to endeavour to find a time suitable for the first telecon and to set-up a regular schedule.

Meeting News

ESA Space Weather Week

As mentioned in an earlier email, we submitted a general HELCATS poster presentation to ESW11, along with a more science-oriented presentation in anticipation of some initial results. We intend to maintain a list of salient presentations on the HELCATS website.

Accession Forms

On a somewhat more logistical note, we have returned the STFC-countersigned accession forms (form A) to the designated contact at each institute. Please contact Jackie (copied to Jane) if you have not received yours. If there are any other logistical issues regarding other administrative matters (such as pre-financing), again please contact us.
